

INSTRUCTIONS FOR 911HELPLINE

Congratulations on your purchase of the 2 way 911 Security Device.

IMPORTANT: you must register this device with 911helpline in order to activate the service and reach 911 emergency operators! See activation instructions.

Parts Description:

Activation:
To activate your service by phone please call 1-800-97GETHELP (1-800-974-3843) or activate it online by going to www.911helpline.org

- **Note:** You will be asked to provide information regarding your method of payment, so please have it ready.**
- * For a complete charge, you must plug in the Unique Charger, to the bottom of the 2 way 911 Security Device, for 6 hours.
 - * Once charged completely, wear the 2 way 911 Security Device anywhere in the U.S. for instant communication with local 911 operators. May not work in any areas that are not covered by 911.

Operation:
To operate the 2 way 911 security device, press the center button for 3 seconds and a 911 responder will answer, which will then allow you the 2-way communication.

- * Side Single Button controls the power of the device and will be used to turn the device on and off, or disconnect the call when needed.
- * A complete charge should last 35-45 days.
- * A low energy signal will sound to notify you when the device needs to be recharged.
- * Water resistant
- * Can be worn around the neck or on a belt (using the belt clip)
- * Should not be worn while sleeping.
- * See warranty for additional information**

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in

a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- * Reorient or relocate the receiving antenna.
- * Increase the separation between the equipment and receiver.
- * Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- * Consult the dealer or an experienced radio/TV technician for help.

Specific Absorption Rate (SAR) information
The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. This model (FCC ID: 2ABGGHELPLINE911) has also been tested against this SAR limited. The highest SAR value reported under this standard during product certification for use at the body is 1.117 W/kg.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
